

2010

Manufacturing Directory

**Red Deer Regional
Economic Development**

Fast Facts from the results of the 2010 Manufacturers Survey...

96.5% of respondents rate the Region as an Excellent (28.5%) or Good (68.1%) place to do business!

Overall estimated gross manufacturing sales for the Region were over \$5 billion.

41% of manufacturer sales are in the Red Deer Region, followed by Alberta at 32%.

The total number of exporters is 73, manufacturing and exporting products to over 35 different countries!

Almost $\frac{3}{4}$ of manufacturers in the Red Deer Region have between 1 and 25 employees.

Number of Employees	Percentage of Manufacturers
1-25	73%
26-50	12%
51-75	5%
76-100	3%
101-150	4%
151+	3%

Red Deer Region Manufacturers Directory

Welcome to the 2010 edition of the Manufacturers Directory. The information within this directory was collected by Red Deer Regional Economic Development (RDRED), a strategic alliance between Red Deer County, Red Deer Chamber of Commerce, Red Deer College and The City of Red Deer. Using our annual survey of the Region's manufacturers, we are able to compile an up-to-date, easy-to-use directory for people doing business in Central Alberta.

How to Use the Directory:

Manufacturers are organized in two ways:

1. North American Industry Classification System (NAICS)

NAICS is a six-digit classification code that was developed to provide a uniform industry-wide system to record statistical information of all economic activities within Canada, USA and Mexico. Within this directory, the categories and their 4-digit subcategories are used. Use the *Table of Contents* to identify page numbers with this method. Included in the Table of Contents is a description of each category.

2. Alphabetical Company Index

For those looking for a specific manufacturer's contact information, all manufacturers can be found in the alphabetical index at the back of this booklet. Also, manufacturers that export have been indicated directly under their company name as well as listed on page 28.

Each company listed in this directory has been coded according to the number of employees it currently has.

Company Size Coding System	
A	1 – 25 Employees
B	26 – 50 Employees
C	51 – 75 Employees
D	76 – 100 Employees
E	101 – 150 Employees
F	151 + Employees

More about RDRED and the Manufacturers Survey

The Manufacturers Survey and Directory are just some of the ways that RDRED facilitates economic development in the Red Deer Region. By providing information on new, current and prospective products and services, it is our goal to provide companies with research on potential regional supplies and optimize their supply chain.

RDRED uses the survey and directory to create awareness of the robust manufacturing sector within the region. Each year, the Manufacturers Directory is circulated to provincial, federal and International Trade Commissionaires, as well as posted to the RDRED website (www.RedDeerCorridor.com). By connecting with these stakeholders, our local companies are able to develop and diversify their markets and export internationally.

For more information about the manufacturing opportunities within the Red Deer region, visit our website @ www.RedDeerCorridor.com or call RDRED @ 403-356-4864.

Table of Contents

Mining and Oil & Gas Extraction
